About HINDUSTAN INSTITUTE OF TECHNOLOGY & SCIENCE (HITS)

Hindustan Institute of Technology & Science (HITS) is a premier Educational Institution in the country that is part of the Hindustan Group of Institutions. Hindustan Institute of Technology and Science (Deemed-to-be University), is a leading prestigious and recognized institution in India, located in Chennai, Tamil Nadu. Founded in 1985 by a great visionary and educationist, Dr.KCG.Verghese with a humble beginning and a vision to "Make every man a success and no man a failure". The Group serves more than 15,000 students through its ten Institutions under its umbrella. The Group celebrated its Golden Jubilee in 2018, with the Hon'ble Vice President of India Shri. Venkaiah Naidu who was the Chief Guest for the valedictory function.

The Institute offers courses for Undergraduate, Post Graduate and Ph.D. Level in all branches of Engineering, Architecture, Management, Law, Liberal Arts and Science which are accredited by the National Board of Accreditation.

» 1st Rank in India for Staff with Ph.D
» 1st Rank in India in publications of papers per faculty.

Founder Chairman

Dr. K. C. G. VERGHESE

(1940–2006)

A friend of mine, who was intensely religious, once asked me a question, "If God Almighty were to appear before you and offer you two boons in place of all your wealth, what would you choose?" I pondered a while. Obviously, my choice of boons had to be powerful enough to rebuild my capital.

After much contemplation, I made my choice: ETERNAL ENTHUSIASM and PERSEVERANCE. For these are the Qualities that made me what I am.

Excerpt from "Wheels & Wings"
Autobiography

TO MAKE EVERY MAN A SUCCESS & NO MAN A FAILURE!

CODE

About HINDUSTAN ONLINE - CODE

The renowned Hindustan Group of Institutions in its non-stop endeavour to be at the forefront of quality education has proudly launched

HINDUSTAN ONLINE - CODE (Centre for Open and Digital Education).

In the wake of the National Education Policy 2020, India is experiencing an important shift in education, and Online programs have successfully catered to the need of the hour by providing highly revered qualifications to both aspiring students and working professionals.

HINDUSTAN ONLINE - CODE offers specially designed programs with well-researched curricula to reduce the industry-academia gap. This makes our learners more employable in this highly competitive world. The programs at CODE are all very contemporary with a well-curated and well-researched curriculum. Our programs do not just provide the theoretical learning of concepts, but we focus on the practical application of these concepts by following Outcome-based Learning concepts.

HINDUSTAN ONLINE - CODE aims at reforming the Indian Higher Education landscape through the provision of equitable and inclusive learning opportunities, contributing to a significant increase in enrolment.

Breaking the barriers of affordability, HITS brings world-class education to your doorsteps by Partnering with Coursera - the leading online learning platform in the world, offering more than 3,800 cutting-edge courses, all taught by top instructors from over 200 leading universities like Yale, University of Michigan and MNCs like Google and IBM. The HITS - Coursera Skill Transformation (HCST) ensures every learner is job-ready by extensive learning.
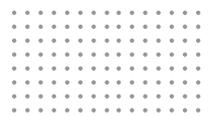

Why Choose
HINDUSTAN ONLINE – CODE?

Pre-Scheduled live classes
For each module by Faculty of National / International Repute and Industry experts.

Mentorship by Industry Leaders
Career Assistance and portfolio building in tandem with the industry experts.

Market-oriented specializations
All the programs reduce the Industry-Academia gap, providing diverse employment opportunities.

Well-researched and crafted Curriculum
Make the learners industry ready.

Blended learning
With easily comprehensible course material, pre-recorded faculty videos, and interactive live sessions.

Global standards
Live lectures by international faculty on specialised topics.

Experiential learning
Case studies and mini-projects.

Peer learning
Discussion forum moderated by the faculty to enable fruitful discussion on the topic under study.

» Digital library access

» MOOCs enabled Curriculum

» Hands-on training on the latest cutting-edge technologies and digital facilities

» Distinguished Alumni contributing to connect academics to actual application to industry.

VISION

To reach to all strata of society in their quest for knowledge.

To empower and enrich the learners with global standards and create motivated leaders who will find innovative solutions and offer strategic guidance for the challenges faced by humanity.

MISSION

To provide a self-paced learning platform for people of all ages to pursue their dream of higher education. To provide Industry relevant programs aimed at reducing the Industry – academia gap and make people industry ready to complement the overall growth of the nation.

Pedagogy: Blended Learning in Flipped Classroom Model

The philosophy of Blended Learning is to combine the educational practice of digital learning tools with more traditional classroom face-to-face teaching. **The flipped classroom model** is a similar program that aims to utilize technology in order to rearrange the learning experience and maximize the effectiveness of valuable face-to-face time in the classroom. In a flipped classroom program, students are encouraged to access digital learning materials via a cloud-based learning platform during their own time.

Blended Learning is not a mere mix of online and face-to-face mode, but it refers to a well-planned combination of meaningful activities in both modes.

The blend demands consideration of several factors, mainly focussing on learning outcomes and the **learner-centered instructional environment.**

The teaching learning process of the programs offered by CODE follows **Blended Learning Process** in which Asynchronous learning is facilitated by pre-recorded Videos and Synchronous learning is by live online sessions.

Practical learning through case studies and webinars with the experts of the Corporate World.

Four Quadrant Approach is followed

Quadrant

01
e-Tutorial

» Live Online A/V Session
» Pre-recorded Multimedia Content

Quadrant

02
e-Content

» Self Learning Material
» Coursera & edX Learning
» MOOCs
» Open Source Web Resources

Quadrant

04
Self Study Activities

Medium:

Medium of Instruction is English for all programs, assignments, presentations, webinars and internal assessment and examinations.

We Welcome the World to **HINDUSTAN**

HINDUSTAN ONLINE – CODE welcomes and supports learners from all over the world and believes that international students make our platform a more vital and more vibrant intellectual community. At present, the majority of our international learners come from 37 countries.

Our counselors are present to understand the needs of every area in every country, which helps us to improve our online education ecosystem. In addition, our counselors have years of experience interacting with learners around the globe, so you can rest assured that they know your needs before you even mention them to them.

3500+ International Alumni (SAARC and African countries)

About **e-VidyaBharati and e-AarogyaBharati (e-VBAB)** Network Project

e-VBAB Network Project is a technological upgrade and extension of the Pan-African e-network Project (Phase 1), implemented across 48 partner countries all over Africa from 2009 to 2017. Phase 1 of the Project successfully imparted tele-education and telemedicine and linked educational institutions and hospitals in India with those from the participating countries in Africa. The flagship e-VBAB project, fully funded by MEA, and GoI, is a progressive step towards capacity building in education and medical science for all the 54 African Nations. It aims to continue providing education and healthcare services to African countries for next five years and allow local employment opportunities to African students, doctors, nurses, and paramedical staff.

About HINDUSTAN ONLINE - CODE

Established 27 years ago, Hindustan Institute of Technology and Science, has established an e- learning arm, HINDUSTAN ONLINE – CODE (Centre for Open and Digital Education) to offer globally benchmarked programs with well-researched curricula to make learners more employable in this highly competitive world. Hindustan's fast-expanding network has set a precedent for universities all over the world as it has earned the name of the most sought-after education destination. Our commitment to deliver world-class education in Africa has led us to establish training centers across various countries of the African continent.

Programs **Offered**

Undergraduate | Duration - 3 Years (6 Semesters)
